Bobbins & Frame Forks

Frame Forks must be fitted to the rear paddock stand before bobbins can be used.

Features: Bobbins

- Makes fitting a rear paddock stand to your bike much easier and quicker
- Does not mark the bikes swingarm
- The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike)
- Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit a rear paddock stand

LEDicators

Replace your standard indicators with these beautifully crafted, miniaturised, high performance components.

A battery of high intensity Light Emitting Diodes (LEDs) put basic, low wattage bulbs in the shade.

Their remarkable 9,000 MCD (900 candle power) of lighting energy is optimised by a new 'Honeycomb' lens technology, to optimise your visibility when manoeuvring.

As well as their bespoke design and enhanced performance, Oxford Eyeshot LEDicators boast a much longer life-span than conventional bulb-lit indicators, so you can spend more time enjoying your bike and less time maintaining it.

- Ultra reliable : No bulbs to replace
- Vibration tested and sealed for life
- Exceed necessary legal standards
